Brilliant inside and out

Christie® D Series expands our existing 3LCD projection family by broadening our range of resolution and brightness options, as well as offering connectivity, integration with third-party systems and a variety of lens options. With an attractively designed exterior and high-performance features, Christie D Series single-lamp projectors give you choice to meet your venue's needs.

Whether you're outfitting a meeting room, event space, classroom or auditorium, the Christie D Series offers a collection of projectors that deliver brightness, wide aspect ratio, exceptional image quality, versatility and ease of use at an affordable price. Backed by industry-leading warranties and service, your technology investment is guaranteed to perform reliably and deliver value in any application.

CHRISTIE®

Christie D Series

- ▲ Virtually no visible connections – Christie OneConnect provides a seamless, aesthetically pleasing installation by hiding the input/output connection panel and routing just the HDBaseT and cable power cord under the projector.

Using Christie LiveViewer software (free with Christie D Series purchase), share audio and video content directly from your computer or laptop to your projector via your Local Area Network or wirelessly (optional USB dongle required). Christie LiveViewer supports greater flexibility for collaborative environments such as classrooms, meeting rooms or large venues – whether you have content from single or multiple sources, or you're projecting content using multiple projectors¹. Collaborate simply and effectively with up to 50 participants, including moderator control of up to 4 simultaneous presentations, on one or various displays when using multiple projectors. You can also make your session secure to prevent unauthorized sharing by asking content participants to enter a passcode.

Christie® D Series delivers the performance and affordability you're looking for in a single-lamp projection solution, while also offering many features unique to this series. You'll find it simple to integrate with third-party control systems for flexibility in collaboration and presentation. These projectors are also compatible with a suite of lenses, including an Ultra Short Throw option that will be available in the Fall of 2015. The Ultra Short Throw lens will have a 0.38:1 throw ratio to meet the tightest space requirements with uncompromised image quality.

Flexibility

-
- Expanded brightness range with 6000 to 8000 lumens
 - Multiple resolutions to choose from – XGA, WXGA, WUXGA
 - Brightest single-lamp options – 8000 for XGA, 7500 for WXGA and 7000 for WUXGA
 - Superior contrast of 10,000:1
 - Flexibility in application with range of lens options, including an ultra short throw lens with a ratio of 0.38:1 (available Fall 2015)
 - Unobtrusive, quiet operation

Professional features

-
- Built-in warping and blending
 - Portrait orientation with no special lamps required
 - Finite color control with Advanced Color Management
 - Excellent image manipulation with digital image shift
 - Stable, uniform brightness in high ambient light environments with High Dynamic Contrast Range (HDCR)
 - eClarity for advanced image processing

Integration

-
- Powerful yet simple high-performance connectivity with 3G-SDI input
 - Single point of connection through HDBaseT and Christie OneConnect
 - AMX and Crestron control
 - Enhanced security functionality for asset management
 - Enhanced projector management with Christie QuickConnect

◀ Christie D Series can offer blending and warping at the same time.

◀ Improve picture quality by adjusting 3 aspects (hue, saturation and luminance) in real-time.
